Pat EVANGELISTA will be in Petersburg for the evening community meeting I think on Tuesday or Wednesday so maybe he would attend. I think it's important to note that by Dec declared Petersburg a state superfund site so Dec can get costs covered and do cost recovery with the prp. We need to make sure Sen Gillibrand's office understands this funding dynamic. Tx

> Dave Connor's, Gillibrand's Capital District Director, called me late on Friday (he has my personal cell). He is convening a staff level meeting on funding options to address Petersburg PFOA issues. Meeting will be this Tuesday in Petersburg. He said USDA and NYS EFC are coming. NYSDOH might come. He asked if EPA would like to attend. He emphasized this is low key and informational. If EPA can't attend he asked for any information/advice we could offer. He did not provide an address or time of day. We need to get to Dave on Monday.
